

Occupational Hygiene

Occupational Hygiene is one of IOM's core services. We help industry, commerce and the public sector to maintain healthy workplaces and to comply with health and safety legislation. Through our assessments, monitoring and advice, we assist our clients meet regulations such as COSHH, Control of Noise at Work and Control of Vibration at Work.

Our occupational hygienists are supported by our own occupational physicians, nurses, specialist laboratory, ergonomists and psychologists who help to ensure the provision of effective support for our clients.

Our Services

From our offices in Scotland, Chesterfield, Stafford and London, IOM helps many clients manage their workplace in a safe and healthy manner. Our team of over a dozen occupational hygienists have a unique blend of experience in research, consultancy and service provision, and several have over 15 years experience and international reputations in their field.

Our hygienists are backed up by our specialist laboratories and our wide ranging UKAS accreditation covers sampling and most types of analyses.

Laboratory services are also available as a stand alone service.

RESEARCH CONSULTING SERVICES

Multi-disciplinary specialists in Occupational and Environmental Health and Hygiene

What we do

IOM's occupational hygiene team will provide you with independent and authoritative information to help you maintain a safe and healthy workplace.

IOM has a unique breadth and depth of experience in occupational hygiene. This has been built up since the 1960s. We have developed sampling instrumentation, investigated many thousands of workplaces, assessed and improved ventilation and noise control and helped improve working procedures. We have also investigated health risks from chemicals and physical agents, helped in the development of methods of assessing dermal and ingestion exposures to chemicals, provided expert witness evidence in hundreds of civil litigation cases and produced many authoritative reviews addressing workplace health and chemical safety. We use this expertise to provide our clients with solutions that are appropriate to their workplaces and resources.

Our commitment to you

We pride ourselves in providing practical and cost-effective solutions to health-related problems you may encounter in your work environment. We will provide effective advice on control methods, working practices, staff training and a range of other measures that will make your workplace a safer and healthier place.
