

PUBLICATIONS OF JAMES DODGSON

PAPERS

Dodgson J, Hadden GG, Jones CO, Walton WH. Characteristics of the airborne dust in British coalmines. In: Walton WH, ed. Inhaled particles III. Proceedings of an International Symposium organized by the British Occupational Hygiene Society in London, 14-23 September 1970. Vol.2. Old Woking (Surrey): Unwin Bros, 1971: 757-782.

Dodgson J, Whittaker W. The determination of quartz in respirable dust samples by infrared spectrophotometry, I. *Annals of Occupational Hygiene* 1973; 16: 373-387.

Dodgson J, Whittaker W. The determination of quartz in respirable dust samples by infrared spectrophotometry, II. *Annals of Occupational Hygiene* 1973; 16: 389-395.

Walton WH, Dodgson J, Hadden GG, Jacobsen M. The effect of quartz and other non-coal dusts in coalworkers' pneumoconiosis. Part I. Epidemiological studies. In: Walton WH, ed. Inhaled particles IV (in two parts). Proceedings of an International Symposium organized by the British Occupational Hygiene Society, Edinburgh, 22-26 September, 1975. Vol.2. Oxford: Pergamon Press, 1977: 669-690.

Beckett ST, Middleton AP, Dodgson J. The use of infrared spectrophotometry for the estimation of small quantities of single varieties of UICC asbestos. *Annals of Occupational Hygiene* 1975; 18: 313-320.

Dodgson J, Robertson A, Wood JD. The measurement of shift average exposures to oxides of nitrogen. *Annals of Occupational Hygiene* 1976; 19: 333-344.

Dodgson J, Middleton AP, Pickard KJ. Some aspects of determining free silica in respirable dust samples. *Proceedings of the Analytical Division of the Chemical Society* 1978; 15: 205-208.

Dodgson J, Ottery J, Cherrie JW, Harmson GE. Fibre concentrations and size distributions of airborne fibres in several European man-made mineral fibre plants. In: Wagner JC, ed. Biological effects of mineral fibres. Proceedings of a symposium...held at the International Agency for Research on Cancer, Lyon, France, 25-27 September 1979. Vol.2. Lyon: IARC, 1979: 913-925 (IARC Scientific Publications no.30) (INSERM Symposia series Vol. 92).

Jacobsen M, Dodgson J. Long-term experience in collecting and using occupational health data in the coal industry. *Annals of Occupational Hygiene* 1981; 24: 391-398.

Seaton A, Dick JA, Dodgson J, Jacobsen M. Quartz and pneumoconiosis in coal miners. *Lancet* 1981; ii: 1272-1275.

Hurley JF, Burns J, Copland L, Dodgson J, Jacobsen M. Coalworkers' simple pneumoconiosis and exposure to dust at 10 British coalmines. *British Journal of Industrial Medicine* 1982; 39: 120-127.

Crawford NP, Bodsworth PL, Hadden GG, Dodgson J. A study of apparent anomalies between dust levels and pneumoconiosis at British collieries. In: Walton WH, ed. Inhaled particles V. Proceedings of an international symposium organized by the British Occupational Hygiene Society. Cardiff, 8-12 September 1980. Oxford: Pergamon Press, 1982: 725-744 (*Annals of Occupational Hygiene*; 26).

Davis JMG, Addison J, Bruch J, Bruyere S, Damiel H, Degueldre G, Dodgson J, Gade M, Gormley IP, Le Bouffant L, Martin JC, Reisner M, Robock K, Schliephake RW. Variations in cytotoxicity and mineral content between respirable dusts from the Belgian, British, French and German coalfields. In: Walton WH, ed. Inhaled particles V. Proceedings of an international symposium organized by the British Occupational Hygiene Society. Cardiff, 8-12

September 1980. Oxford: Pergamon Press, 1982: 541-549 (Annals of Occupational Hygiene; 26).

Dodgson J. Foreword: the measurement of occupational exposure to asbestos. In: Walton WH, ed. Inhaled particles V. Proceedings of an international symposium organized by the British Occupational Hygiene Society. Cardiff, 8-12 September 1980. Oxford: Pergamon Press, 1982: 115-116 (Annals of Occupational Hygiene; 26).

Robertson A, Dodgson J, Gormley IP, Collings P. An investigation of the adsorption of oxides of nitrogen on respirable mineral dusts and the effects on their cytotoxicity. In: Walton WH, ed. Inhaled particles V. Proceedings of an international symposium organized by the British Occupational Hygiene Society. Cardiff, 8-12 September 1980. Oxford: Pergamon Press, 1982: 607-623 (Annals of Occupational Hygiene; 26).

Bradley A, Dodgson J, Hadden GG. Dust sources along longwall faces. In: Commission of the European Communities. Conference on health in mines, Luxembourg, 30-31 May 1983. Report. Luxembourg: CEC, 1983: 125-136.

Ottery J, Dodgson J, Harrison GE, Cherrie J. Short-term surveys of airborne fibres in European manufacturing plants. In: World Health Organization: Regional Office for Europe. Biological effects of man-made mineral fibres. Report on a WHO/IARC meeting, Copenhagen, 20-22 April 1982. Copenhagen: WHO, 1983: 64-65 (WHO Euro Reports and Studies 81).

Mortality among a cohort of man – made mineral fibres (MMMF) production workers in seven countries: extension of the follow – up until 1982. In: Dodgson J, McCallum RI, Bailey MR, Fisher DR, eds. Inhaled particles VI. Proceedings of an International Symposium and Workshop on Lung Dosimetry organised by the British Occupational Hygiene Society in co-operation with the Commission of the European Communities, Cambridge 2-6 September 1985. Oxford: Pergamon Press, 1988: 725-734. (Annals of Occupational Hygiene; 32 (supp1.1)).

Dodgson J, McCallum RI, Bailey MR, Fisher DR, eds. Inhaled particles VI. Proceedings of an International Symposium and Workshop on Lung Dosimetry organised by the British Occupational Hygiene Society in co – operation with the Commission of the European Communities, Cambridge 2-6 September 1985. Oxford: Pergamon Press, 1988. (Annals of Occupational Hygiene; 32 (supp1.1)).

Cherrie J, Addison J, Dodgson J. Comparative studies of airborne asbestos in occupational and non-occupational environments using optical and electron microscope techniques. In: Bignon J, Peto J, Saracci R, eds. Non-occupational exposure to mineral fibres. Lyon: International Agency for Research on Cancer, 1989: 304-309. (IARC Scientific Publications No.90) (EUR 12068).

Breyse PN, Cherrie JW, Addison J, Dodgson J. (1989). Evaluation of airborne asbestos concentrations using TEM and SEM during residential water tank removal. Annals of Occupational Hygiene; 33: 243 – 256.

Addison J, Dodgson J. The influence of shape, size and composition of individual dust particles on the harmfulness of coalmine dusts: development of methods of analysis. In: National Institute for Occupational Safety and Health. Proceedings of the VIIth International Pneumoconioses Conference, August 23-26, 1988, Pittsburgh, Pennsylvania, USA. Part I. Pittsburgh (PA): US Department of Health and Human Services, 1990: 287-290. (DHHS (NIOSH) Publication No.90-108 Part I).

IOM REPORTS

Dodgson J, Bradley A. An investigation of the hazard of stripping asbestos laggings from boilers. Restricted. Edinburgh: Institute of Occupational Medicine, 1970. (IOM Report TM/70/02)

Dodgson J, Jones CO. Nitrous fume concentrations during shotfiring in coalmines. Edinburgh: Institute of Occupational Medicine, 1972. (IOM Report TM/72/02)

Dodgson J, Harrison GE. The composition of respirable dust in some British coalmines. Edinburgh: Institute of Occupational Medicine, 1972. (IOM Report TM/72/03)

Dodgson J, Robertson A. A study of nitrous fumes in coalmines in relation to effects on health. Final report on CEC Contract 6253-44/8/019. Edinburgh: Institute of Occupational Medicine, 1976. (IOM Report TM/76/23)

Dodgson J, Cowie AJ, Paris I, Whittaker W. A study of the importance of dust composition in relation to pneumoconiosis in coalminers. Final report on CEC Contract 6253-32/8/018. Edinburgh: Institute of Occupational Medicine, 1977. (IOM Report TM/77/08)

Hurley JF, Copland L, Dodgson J, Jacobsen M. Simple pneumoconiosis and exposure to respirable dust: relationships from twenty-five years' research at ten British coalmines. Edinburgh: Institute of Occupational Medicine, 1979. (IOM Report TM/79/13)

Cowie AJ, Ewing A, Hurley JF, Dodgson J. A study of the day-to-day variation in the composition of dust samples and of the measurement procedures required to establish the composition of the dust with requisite accuracy. Final report on CEC Contract 6253-32/8/067. Edinburgh: Institute of Occupational Medicine, 1980. (IOM Report TM/80/02) (EUR 6525 1980)

Crawford NP, Bodsworth PL, Hadden GG, Dodgson J. An investigation of dust composition and other factors at collieries where the pneumoconiosis progression index appears to be anomalous in relation to dust concentration. Final report on CEC Contract 6253-32/8/066. Edinburgh: Institute of Occupational Medicine, 1981. (IOM Report TM/81/03) (EUR 6527)

Robertson A, Collings P, Gormley IP, Dodgson J. A study of the exposure of British mineworkers to nitrous fumes and the effects on their health. Final report on CEC Contract 7253-32/8/086. Edinburgh: Institute of Occupational Medicine, 1981. (IOM Report TM/81/07)

Cowie AJ, Crawford NP, Miller BG, Dodgson J. A study of the importance of 'total' dust (as compared with the respirable fraction) in causing upper respiratory disease. Final report on CEC Contract 7246-16/8/003. Edinburgh: Institute of Occupational Medicine, 1981. (IOM Report TM/81/09)

Ottery J, Cherrie J, Dodgson J, Harrison G. A summary report on environmental conditions at 13 European man made mineral fibre plants. Edinburgh: Institute of Occupational Medicine, 1982. (IOM Report TM/82/21)

Addison J, Bolton RE, Davis JMG, Dodgson J, Gormley IP, Hadden GG, Robertson A. The relationship between epidemiological data and the toxicity of coalmine dusts. Final report on CEC Contract 7253-32/8/096. Edinburgh: Institute of Occupational Medicine, 1982. (IOM Report TM/82/22)

Robertson A, Bradley A, Weston P, Cherrie B, Dodgson J. A study of the fume exposure of mine workers from diesels in drivages in relation to varying mining conditions and the effects on their health. Final report on CEC Contract 7256-33/028/08. Edinburgh: Institute of Occupational Medicine, 1983. (IOM Report TM/83/06)

Robertson A, Bolton RE, Chapman JS, Davis JMG, Dodgson N J, Gormley IP, Jones AD, Miller B. Animal inhalation experiments to investigate the significance of high and low percentage concentrations of quartz in coalmine dusts in relation to epidemiology and other biological tests. Final report on CEC Contract 7256-32/019/OS. Edinburgh: Institute of Occupational Medicine, 1984. (IOM Report TM/84/05)

Cherrie J, Dodgson J. A historical environmental investigation at 13 European man – made mineral fibre production plants. Edinburgh: Institute of Occupational Medicine, 1987. (IOM Report TM/85/08(rev)).

Cherrie JW, Dodgson J, Groat S, Carson M. Comparison of optical and electron microscopy for evaluating airborne asbestos. Edinburgh: Institute of Occupational Medicine, 1987. (IOM Report TM/87/01).

Howie RM, Coleman GC, Graveling RA, Graves RJ, Nicholl AGMcK, Groat S, Wildblood R, Crawford NP, Dodgson J. Development of a powered helmet respirator suitable for use in coal mines. Final report on CEC Contract 7247/14/041. Edinburgh: Institute of Occupational Medicine, 1987. (IOM Report TM/87/03).

Robertson A, Hurley JF, Brown PW, Collins HPR, Dodgson J, Maclaren WM. A case-control study of reasons for unusual radiological changes of pneumoconiosis among individual mineworkers. Edinburgh: Institute of Occupational Medicine, 1987. (IOM Report TM/87/11).

Dodgson J, Harrison GE, Cherrie JW, Sneddon E. Assessment of airborne mineral wool fibres in domestic houses. Edinburgh: Institute of Occupational Medicine, 1987. (IOM Report TM/87/18).

Mark D, Cowie H, Vincent JH, Gibson H, Lynch G, Garland R, Weston P, Bodsworth P, Witherspoon WA, Campbell S, Dodgson J. The variability of exposure of coalminers to inspirable dust. Edinburgh: Institute of Occupational Medicine, 1988. (IOM Report TM/88/02).

Robertson A, Howie RM, Maclaren WM, Dodgson J, Garland RP, Afacan AS, Jones K, Wood N, Bellamy M, Fisher P. (1989). Hearing abilities of a group of mineworkers in relation to their age and estimated noise exposures. Final report. Edinburgh: Institute of Occupational Medicine. (IOM Report TM/88/18).

Howie RM, Best CF, Dye RW, Graveling RA, Crawford NP, Dodgson J. (1989). Development of a prototype powered helmet respirator suitable for use in coalmines. Edinburgh: Institute of Occupational Medicine. (IOM Report TM/89/02).

Cherrie JW, Bodsworth PL, Cowie HA, Groat SK, Pettie S, Dodgson J. A report on the environmental conditions at seven European ceramic fibre plants. Edinburgh: Institute of Occupational Medicine, 1989. (IOM Report TM/89/07).

Addison J, Miller BG, Porteous RH, Dodgson J, Robertson A. Shape, size and composition of coalmine dusts in relation to pneumoconiosis in British coalmines. Final report on CEC Contract 7260-03-035-08. Edinburgh: Institute of Occupational Medicine Ltd, 1990. (IOM Report TM/90/10).
